Bespoke Facials

MONU skincare range began 30 years ago when a beauty therapist Susan Molyneux became, perhaps, the first beauty therapist to recognize that the efficacy of professional beauty products required a different formation to those available at the time. *MONU products contain natural ingredients of essential oils and plant extracts, they are sourced locally.

*No Airfreight. They use land and sea to source materials where possible.

*No Animal testing - All products are tested on human volunteers not animals, MONU also ensure that none of the ingredients used within their products are tested on animals either.

*Recyclable packaging- all the glass, plastic and aluminum bottles and tubes are recyclable and made from bleach free board. We source all our paper products from sustainable forests.

MONU want you to feel good about using the products on your skin, not just because they are great, but because they are environmentally friendly too.

Bespoke Facials
